## Nano Products

ESD Polymer Mfg by - Latern Nano Materials India Pvt Ltd

ESD Polymers

Products	Recommended for
ESD TOP COAT	Medical facilities, Cleanrooms, Explosives and munitions buildings, Hazardous powder facilities, Electronics facilities, Semiconductor manufacturing plants, Telecommunications buildings, Sensitive device storage, Plastics and rolled goods conveyors.

ESD POWDER COATING	Medical facilities, Cleanrooms, Explosives and munitions buildings, Hazardous powder facilities, Electronics facilities, Semiconductor manufacturing plants, Telecommunications buildings, Sensitive device storage, Plastics and rolled goods conveyors.
ESD PAINT	ESD Furniture ESD SMC auto components ESD Bins & trays ESD Conveyor
ESD BOND	ESD furniture. ESD floor mats etc.
ESD BUILD	Aerospace detonator handling. Electronics manufacturing and testing facility. Data centres. Energetic devices. Military and military ordinance areas. Engineering labs..
ESD CP (CONDUCTIVE PRIMER)	Can be used as a conductive layer before ESD top coat application. Optimum for electronics/ semiconductor manufacturing. Automotive interiors Protecting solvent storage rooms. ATEX Zone. EMC shielding applications.
